Subject:- G.M.F. - New Well Subsidy Scheme 1948-49 - Progress report for October 1948 - Reviewed.

Read the following:-

Reports from Collectors.

The Board submits to the Government its review on the working of the New Well Subsidy Scheme 1948-49 for the month of October 1948.

2. The reports were due to the Board on 10-11-1948, only the Collectors of Ramnad, Chittoor, Madura, Coimbatore, South Kanara, Bellary and East Godavari submitted their reports in time. The delay in the submission of the reports from other Collectors ranged from 2 to 17 days. The last report was received from the Collector of Nellore on 27-11-48. The Board has recently issued instructions that the reports should be for "the treasury month" and not for "the calendar month". It hopes that the returns will be submitted by all Collectors punctually in future and for 'the treasury month'.

3. The Board is constrained to remark and that still there are unexplained discrepancies between the figures now reported and those furnished in the previous returns in spite of the repeated instructions issued for guidance in the preparation of the returns. It is an indication of carelessness in their preparation. The discrepancies have been pointed out in the appendix to this proceedings. The collectors concerned are requested to get them reconciled at an early date and to adopt correct figures in their subsequent reports. Action should also be taken against the persons responsible for the careless preparation of the statements.

4. The following table will show at a glance the number of applications received and the number disposed of and the progress made during and upto the month under review.

No. of applications received during the month.	Number of applications for disposal during the month.	No. of applications sanctioned and the amount involved.				No. of applications rejected.

Out of 94385 applications for disposal during the month only 3461 applications (involving an amount of Rs.19,85,651) were sanctioned and 10435 applications were rejected, thus leaving a large balance of 80,489 applications i.e. subsidised were sanctioned only in 3½% of the total number of applications for disposal. The percentage of applications rejected (being 11%) is much larger than that sanctioned. The progress made in the disposal of applications is on the whole very poor and disappointing.

In the Tanjore District no subsidy was sanctioned during the month though there were 125 applications for disposal. In South Kanara the subsidy was sanctioned for only one well. No applications were received in the Nilgiris district even though the scheme has been in force for more than 6 months.

The Board observes that still there is delay in the payment of subsidy loans after sanction was accorded. There is absolutely no reason for any delay at this stage. The position in the East Godavari and West Godavari districts is very bad in this respect. In East Godavari no payment has been made so far although sanction has been accorded in 73 cases, in West Godavari subsidy loans have been paid only in 3 cases whereas sanction has been accorded in respect of 13 cases.

The attention of the collectors of all districts is invited to the Board's L.Dis.V.Spl.# 6412/48, dated 24-11-1948 and they are requested to speed up the disposal of applications and see that the entire subsidy amount allotted to each district is actually paid by the end of December 1948 so that the grantees may start the well works in right earnest by the beginning of January 1949 at the latest and complete them within the preseribed time. The Board has separately called for collector's proposals for additional allotments and surrenders, in order to enable the Board to transfer unspent allotment from one district to another in suitable cases.

GOVERNMENT OF MADRAS.
Abstract.

GROW MORE FOOD - New Well Subsidy Scheme - 1948-49 - Progress Report for October 1948 - Review Recorded.

REVENUE DEPARTMENT.

G.O.Ms.No.463 Dated the 26th February 1949.

Read: From the Board of Revenue, Res.Rt.No.8040, dated 3-12-1948.

ORDER:

Recorded.

2. It is observed that the figures reported for South Arcot for the month under review do not agree with the figures reported for the ~~ix~~ earlier months. The reports for June and July did not show any additional acreage brought under cultivation though according to the return for August 1948, an extent of 36 acres should have been previously shown in June or July 1948. 50 acres were shown as the additional area brought under cultivation in the month of September but the progressive total for the month has not been increased from 86 to 136 acres. On the same basis the correct figure regarding the additional area brought under cultivation up to end of October should be 136 acres and not 86 acres as reported. The Board is requested to scrutinise the collector's reports and rectify such errors before submitting the reports to Government.

BY ORDER OF HIS EXCELLENCY THE GOVERNOR.

M. GOPAL MENON,
SECRETARY TO GOVERNMENT.

To the Board of Revenue.
